Experience

Wowwill.in [Live Link](#) 

Mar 2023 – Jan 2024

Software Developer Intern

Remote, India

- Established a scalable backend on PostgreSQL and deployed on Microsoft Azure, ensuring robust data storage and high-performance access.
- Architected and deployed a full suite of RESTful APIs for critical functionalities like user login and profile management, seamlessly integrated with Firebase OTP authentication for secure mobile access.
- Pioneered the project from scratch, designing and developing the entire UI in React and integrating responsive, dynamic elements to enhance user engagement.

Dframe.org

Dec 2022 – Mar 2023

Software Developer Intern

Remote, India

- Designed and implemented Restful APIs for the ensuring robust functionality and flexibility.
- Engineered dynamic and responsive user interfaces with React, TypeScript, and Material-UI, streamlining user data input for a seamless and intuitive experience.
- Developed a secure multi-step KYC verification system featuring dynamic forms for user inputs, document upload for government ID, and live webcam capture for identity verification, enhancing compliance and user security.

Projects

JobQuest - Mobile app for finding fresh, relevant job openings | [Project Link](#)

- Developed a **React Native** mobile app that streamlines the job search process, giving users quick access to the latest job listings and simplifying the application process.
- Integrated **RESTful APIs** to deliver real-time job postings and implemented powerful search functionality for efficient job discovery.
- Designed an **intuitive UI** enabling users to seamlessly browse and apply for jobs directly from their devices.

Rentify - Renting properties made simple | [ReactJS, NodeJS, ExpressJS, MongoDB](#) | [Project Link](#)

- Built **Rentify**, a full-stack app enabling users to view and sellers to list properties, enhancing the real estate experience.
- Utilized **MongoDB** for seamless data storage and management of property listings.
- Deployed frontend on **Netlify** and backend on **Render** for optimized performance and reliability.

Technical Skills

Programming Languages: C++, JavaScript, TypeScript

Web Development: ReactJS, NextJS, NodeJS

Databases: MongoDB, PostgreSQL

Cloud Platforms: Microsoft Azure, Docker

Core Subjects: Data Structures & Algorithms, Operating Systems, Networking, Database Management, SDLC

Achievements

- Solved **650+** Data Structures and Algorithmic problems on coding platforms such as **LeetCode** and **Codeforces**.
- 3★ coder on CodeChef. [Profile Link](#) 
- CodeForces: 1271 rating, **Pupil**. [Profile Link](#) 
- Secured World Rank 1094 among 32K+ participants in LeetCode Weekly Contest 411, top 3% of Leetcoders.
- Hacktoberfest'23 Winner** - Recognized for significant contributions to open-source projects.

Education

Government College of Engineering Aurangabad
B.Tech : Information Technology (IT)

Jan 2021 - Aug 2024
CGPA : 7.69
